HOPE Network Awards Educational Daycare Grants

Marcia Voigt and Joy Centgraf have been named recipients of Edmund Springman Educational Daycare Grants. These HOPE Network grants will pay childcare costs while they attend school during the fall and spring semesters.

Marcia is a nursing student at MATC, and will graduate in two years as an R.N. She plans to complete her bachelor's degree later through UW-M. She has worked the past three years as a part-time medical secretary at Sinai Samaritan Medical Center, where the director of her department called her an "exemplary employee" and "devoted mother."

Joy is a junior at Concordia College, majoring in social work. After graduation, she will qualify as a Professional Church Worker in the Lutheran church, and plans to work in a Christian setting in the area of social ministry. Later, she would like to obtain a master's degree in social work with a specialty in family counseling from UW-M. She looks forward to a career in Christian social work, as it will "allow me to serve my Lord, help others and support my family!"

Congratulations, Marcia and Joy!

Marcia and her two-year-old daughter, Nicola.

Networking with Phone Directory

HOPE Network has compiled its third annual phone numbers, addresses, children's ages.
